

CLEARsplint™

ADVANTAGES
for both dentist
and patient

Dentist

Patient

1. Astron's flexible **CLEARsplint** is self-adjusting. This superb accuracy permits the closest fit.
2. Better fit reduces post-operation chair time.
3. Dimensional stability means fewer, if any, adjustments which are done conventionally.
4. Eliminates allergy problems; no methyl methacrylate like acrylic splints.
5. Ramps and guide planes can be added to reposition the mandible.
6. **CLEARsplint** is a superior product for higher profit potential.

1. **CLEARsplint** is self-adjusting in the mouth and is pre-softened in hot water.
2. Better fit reduces post-operation chair time, provides more comfort, resistance to slipping and rugged wearability.
3. Amine-free; will not yellow with age; always transparent.
4. **CLEARsplint** can be repaired or relined which adds value for the patient.
5. High-impact, heat-cured composite resin rebounds extremely well from shock.
